

New Waste Disposal Company

Beginning **May 2nd, 2022**, Golden Ridge Condominium Association will be changing our waste disposal service provider to Republic Services. They will be providing the following scheduled services:

- **Domestic waste removal:** Monday /Wednesday / Friday
- **Recycling waste removal:** Monday / Thursday

*****Important: Please be advised!*****

Rules for Waste Disposal / Removal:

- Each dumpster must not be filled over the top edge to allow for the lids to remain closed. This is mandatory per the City of Golden.
- No furniture, no appliances, no construction waste, and no large items are permitted. There are signs with further instruction posted at the dumpster areas on site. If you have questions regarding an item, please contact the Main Office.
- Unwanted items are not to be placed anywhere on the property. Please take any unwanted reusable items to a donation site. Abandoning these items on site is not permissible.
- The dumpster areas are monitored. If any items are disposed of in violation these rules, you will be notified and subject to a possible fine.
- The recyclable items list is very strict. Please see the attached list of appropriate items. Cardboard boxes should be broken down and flattened.
- If you notice a violation, please assist the community in reporting it. Especially if you notice violators that are illegally dumping on the premises.

New Additions:

- Republic Services will be adding locking bars to the dumpsters to hold the lids down, to assist in leveling trash, and to prevent trash from blowing out of the dumpsters. We request that everyone use the locking bars.
- Recycling waste removal days will now be Monday / Thursday.
- An additional recycling dumpster will be placed outside of Building 2 to better accommodate Buildings 1-3 with their recycling needs.

If you have any questions or suggestions for methods to better dispose of your waste materials, please contact the Main Office at 303-279-9638.

Thank you for your assistance in bettering our community by helping to keep it clean!
